Therefore, such information is provided for reference purpose only and constitutes neither an offer nor an acceptance. Huawei may change the information at any time without notice.

This document describes how to upgrade SDongle WLAN-FE using Fusion Solar App. The software version needs to be provided by service engineers. Contact <u>eu inverter support@huawei.com</u> for more information.

Prerequisites:

Only Android OS is supported.

The SDongle that needs to be upgraded should have firmware version **SDongleV100R001C00SPC115** or later, otherwise the upgrade cannot be performed locally.

1. Unplug and plug-in again the SDongle

The WLAN-FE dongle has hotspots only within 3 minutes after it is powered on. In order to upgrade the inverter locally, the SDongle needs to be disconnected and connected again to the USB port of the inverter.

2. Connect locally on SDongle
